

Table with 120 columns (1-120) and 1000 rows (1-1000). Each row contains a sequence of letters (A-Z) and dashes, representing a protein sequence. The sequences are color-coded by amino acid type: A (green), C (blue), D (red), E (purple), F (yellow), G (grey), H (cyan), I (orange), K (pink), L (light green), M (dark green), N (light blue), P (light orange), Q (yellow-green), R (dark red), S (light purple), T (grey), V (orange), W (dark blue), Y (yellow). The table lists various protein variants, including DaPu\_Vamp72/1-126, TrAd\_Vamp7/1-113, and many others.
